संस्कृती

A Season full of lights & festivity
Happy Diwali

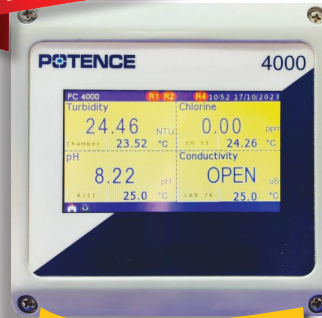

Edition 17 ■ July - Sep 2023
For Private Circulation Only

I am delighted to announce the successful development of the PC-4000, a product that marks a significant milestone in Ashe Controls' commitment to innovation and excellence.

The PC-4000, crafted exclusively for one of our esteemed customers, represents a leap forward in multifunctional instrumentation, sharing its DNA with the esteemed PC-500, PC-1000, and PC-2000 product lines. This versatile marvel is a four-channel Indicator, Controller, Data Logger and Transmitter poised to revolutionize the Water Treatment industry. It offers precision measurements for pH, Redox (ORP), Conductivity, and Total Dissolved Solids (TDS) through its Analog input options, and in the Digital Sensors domain, it excels in Total Suspended Solids (TSS), Turbidity, Dissolved Oxygen, and Chlorine.

What sets it apart is its ability to compensate for air pressure in Dissolved Oxygen measurement, ensuring unparalleled accuracy. Additionally, it offers air pressure and pH compensation for Dissolved Oxygen and Chlorine measurements, further enhancing its precision. The Conductivity range has been extended to an impressive 200 milliSiemens/cm. For enhanced flexibility, the customer has the liberty to choose two analog and two digital inputs, tailoring the PC-4000 to their specific needs.

**NEW
PRODUCT**

**PC-4000
launched**

**includes
IoT functionality
enabling
seamless wireless
connectivity**

Beyond its remarkable measurement capabilities, the PC-4000 harnesses the power of three microcontrollers, driving a four-channel indication system presented on a large, vibrant 4.3" color HMI Touch Display. The instrument offers not only four relay outputs for each of the four channels but also a fifth relay dedicated to jet cleaning function, an affirmation of its comprehensive functionality.

As a testament to its commitment to data management, it provides data logging capabilities, with easily accessible data downloadable via a USB port to a pen drive. But the innovation doesn't stop there; I am proud to announce that this instrument has now been elevated to include IoT functionality, enabling seamless wireless connectivity. With WiFi compatibility, the PC-4000 can be effortlessly connected to mobile devices, bringing unparalleled convenience and accessibility to the fingertips of our valued customers.

The PC-4000 represents a new standard in precision, functionality, and connectivity, and I couldn't be more excited to share it with you all. It's not just a product; it's a proof of our dedication to pushing the boundaries of what's possible in instrumentation technology. Thank you all for your continued support, and we all look forward to the exciting journey ahead with the PC-4000.

TRAINING

Wishes from Ashe Team as
Sachin Kharshinge leaves for IPC training

Sachin Kharshinge on completion of training

आपली लेक
स्वभावाने great असते
प्रेमाचे net असते
सुखाचे gate असते
लेक ही लेकच असते..
भावाशी close असते
बापाची rose असते
आईची pose असते
अभिमानाचे nose असते
लेक ही लेकच असते..
जगण्यातील shift असते
ईश्वराची gift असते
सुखाची lift असते
लेक ही लेकच असते..
घराण्याची fame असते
भविष्यातील dame असते
तुमची आमची same असते
लेक ही लेकच असते!!
